Things to consider when planning a Memorial for your loved one

When choosing a stone Memorial there are several things to consider. Our Memorial Specialists are on hand to support and guide you through the whole process, making the journey as smooth as possible.

1. Inscriptions

There is the option to personalise your stone Memorial with a name, date and message in a lettering style and colour of your choice.

2. Design

The stone Memorial can be completely customised, including material, finish, shape, size, base, design, features and vases.

3. Location

Consider placements for the stone Memorial where the material isn't going to be affected by the environment, for instance sap and decaying leaves may affect a marble stone.

4. Warranty & Insurance

All Memorials come with a warranty, however we advise taking out insurance to safeguard against any potential damage.

5. Regulations

Churchyards and cemeteries have regulations which govern the type of material allowed and the size of the Memorial. We will confirm the specifics based on the location.

6. Maintenance

Regular, annual cleaning is advised to preserve the appearance and prevent deterioration of all Memorials. We will provide guidance based on the type of Memorial and material chosen.
